Esala

Named after the Sri Lankan festival, Esala is a celebration of joyous colour and a fusion of patterns, motifs and semi-plains. This 'get the look' concept provides a visual representation of how Scion's products work alongside each other to create an entire scheme.

Fabrics and wallpapers, new and best-selling, have been brought together, building a design story that's perfect for the contemporary home. Choose from favourite colour groups including Spiced Pear, Tropicana, Fruit Salad and Candy for vibrant, standout pops of beautiful, outspoken colour.

Layer oversized jungle plants and characterful motifs with stylised hand-drawn florals, and pair angular geometrics with textural plains and semi plains for a fresh, funky interior alive with creativity. Look out for Scion's iconic Mr Fox, cheerful love birds and the debuting Pedro Penguin in this cleverly tailored and co-ordinating collection, full of possibilities.
