## MIDI FOX NEW FOR SS22

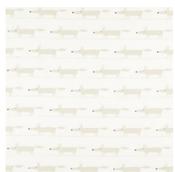

Not too big and not too small, our Midi Fox is just right. Perfectly placed to stride across curtains and blinds, this useable scale completes our favourite Fox family. Introducing two new colour combinations, team with Midi Fox wallpaper to create an iconic scheme.

Bringing a calming feel to any interior and produced on fabric for the first time, our Snow colourway blends contemporary design with a relaxed, pared back aesthetic. Together with warming Chai, the natural tones of Pebble/Denim and the contrasting trend colours of Milkshake/Rose, this latest edit sees Mr Fox in a range of versatile looks.
